UV CLEAR FURNITURE

Furniture is a basic and decorative item to harmonize any room. UV Clear Furniture coatings is transparent and especially used for drawers and flat furniture parts to protecting the wooden surfaces.

Unlike conventional coating solutions that require three application layers (UV filler, sealer, and top coat), our UV High-Buildup Filler/Top Coat system requires the application of only two layers, cost efficient and shorten time during the production process.

Increased hardness & durability

Quick-drying and safe to handle

Contains no VOCs
